)FM Broadcast Station KQLI  
(Lawton, Oklahoma))  
)  
)**RECEIVED****JUL 21 1992**

To: The Commission

**PETITION FOR RULEMAKING**FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Communicorp, Inc. (Petitioner), by its attorney and pursuant to section 1.401 of the Commission's rules and regulations, 47 C.F.R. § 1.401 (1991), hereby respectfully requests the Commission to institute a rulemaking proceeding to amend the Commission's Table of FM Assignments, section 73.202(b), to change the frequency allocated to Lawton, Oklahoma from Channel 232A to 231C<sub>2</sub>. The proposed amendment in the Table of FM Assignments would result in the following allocation:

<u>City/State</u>	<u>Channel Number</u>	
	<u>Present</u>	<u>Proposed</u>
Lawton, Oklahoma	232A	231C <sub>2</sub>

In support of this Petition, Petitioner shows and states as follows:

1. Petitioner is the licensee of FM broadcast station KQLI, Lawton, Oklahoma. KQLI operates on a class A FM frequency, with an effective radiated power of 3 kW from an antenna radiation center 100 meters above average terrain and 93 meters above ground. Grant of this Petition will, therefore, require modification of the KQLI license to specify operation on channel 231C<sub>2</sub>.

No. of Copies rec'd \_\_\_\_\_  
List A B C D E \_\_\_\_\_

049

2. Lawton is a community with a population of over 80,500 (1990 census) and is the heart of Comanche County with a population of 111,486 (1990 census). Amendment to the Table of Assignments, and modification of Petitioner's license as requested will greatly enhance service to Lawton and the greater Comanche County area.

3. Attached hereto as Exhibit A is a Statement of Feasibility in support of this Petition. As noted in the Statement, channel 231C<sub>2</sub> is available for assignment to Lawton without any allocation constraints, or disruption in the Commission's present allocation plan. Moreover, Exhibit A shows that Channel 231C<sub>2</sub> may be assigned to Lawton without any impact or site restrictions on the use of the allocation, and in full compliance with all separation and interference standards. KQLI's current channel, channel 232A, was formerly reserved for class A use in section 73.206. The limitation in 73.206 has been deleted by the Commission in its Report and Order in MM Docket No. 86-144 (FM Allocations), FCC 86-0590, 62 Rad. Reg. 2d (P&F) 17 (1987), to encourage licenses and permittees to upgrade their existing service and improve their competitive position. In FM Allocations the Commission found that such upgrade proposals would be in the public interest if they met existing Commission technical requirements.

4. As fully documented herein, the city of Lawton and Comanche County are populous areas with a manifest need for expanded local FM service. The channel reclassification and attendant power and area coverage increase which would result from grant of this request are thus in the public interest.

Modification of FM and TV Station Licenses, 98 F.C.C.2d 916 (1984),  
Report and Order in MM Docket No. 85-219, Mimeo No. 3940, released  
April 22, 1986.

5. If this Petition is granted, and KQLI's authorization modified accordingly, Petitioner will promptly construct the new facilities and inaugurate an increased broadcast service.

**WHEREFORE**, for the foregoing reasons, Communicorp, Inc. respectfully requests the Commission to initiate a Rulemaking proceeding to amend section 73.202(b) of its rules to substitute Channel 231C<sub>2</sub> for channel 232A in Lawton, Oklahoma and modify the KQLI license accordingly.

Respectfully submitted,  
Communicorp, Inc.

By: 

Colby M. May  
Its Attorney

**MAY & DUNNE, CHARTERED**

**Statement Of Feasibility**

**For**

**The Upgrade of KQLI from Channel 232 A to 231 C2**

(94.3 Mhz to 94.1 Mhz) Lawton, Oklahoma

As shown by the attached FM Spacing Studies, (as extracted from the Dataworld database dated 7/7/92 and the FCC database dated 5/26/92), channel 232 A Lawton, Oklahoma can be upgraded to a C2 if moved to the next lower adjacent channel of 231. As a C2 on channel 231 KQLI would still maintain the required separation from all Co-channel and all Adjacent channel frequencies as required by the Federal Communications Commission's Rules and Regulations.

The C2 allotment to KQLI Lawton, Oklahoma, will not preclude any other comparable FM service. The allotment will give the S. W. Oklahoma area an additional and much needed wide coverage full service FM station.

Special Notes

In reference to this request for a  
"Notice of Proposed Rule Making"

(referring to the FM Spacing Studies on pages 1 to 6 attached)

Note #1 page #1

Per the Datavorld database KSEY-FM has forfeited its construction permit at these coordinates. According to the FCC database note 3, page 4 the 230C2 allocation is reserved for KSEY-FM at their current location, which is seperated from our 231C2 request by the required distance.

Note #2 page #2

The short space listing is to KQLI which this request for upgrade is for. If this request is granted this listing will no longer exist.

Note #3 page #4

According to the FCC database on page 4 the 230C2 allocation is reserved for KSEY-FM at their current location, which is seperated from our 231C2 request by the required distance.

Note #4 page #5

The two short space listings is to KQLI which this request for upgrade is for. If this request is granted those will no longer exist.
